Grupo Carso wins the Samalayuca-Sasabe Gasoduct project awarded by the CFE

Grupo Carso, S.A.B. de C.V. ("GCARSO") informs the investing public that on September 11, 2015, the Federal Electricity Commission of Mexico (CFE) selected the proposal submitted by its subsidiary Carso Electric, S.A. de C.V., as the winning bid in the tender process for the construction and operation of the Samalayuca-Sasabe pipeline, between the states of Chihuahua and Sonora. The company bid the amount of USD \$471 million as net present value (NPV), which represented the lowest NPV offered, determining CFE that it was the best value in relation to price, quality and performance as required by the bases of the tender. The formalization of the transport service contract with the CFE is still pending.
