Topic:
Grupo Carso wins the bid for the construction of runway 3 of the New Airport of Mexico City

Grupo Carso, S.A.B. de C.V. (“GCARSO”) informs the investing public that on September 02, 2016, the Mexico City Airport Group (MCAG) selected the proposal submitted by the consortium comprised by its subsidiary Operadora Cicsa, S.A. de C.V., which participates with a 25%, and the construction companies: Construction and Edificadora Gia + A, S.A. de C.V., Promotora y Desarrolladora Mexicana, S.A. de C.V. and La Peninsular Compañía Constructora, S.A. de C.V. as the winning proposal in the bidding process for the construction of track 3 of the New Airport of Mexico City. This project consists of the pre-charge system and geotechnical instrumentation, infrastructure, structure of pavements and civil works of visual aids and navigation. The consortium bid an amount of \$7.359 billion pesos, figure that represented the lowest financial proposal offered, determining the MCAG as the best value relative to the price, quality and performance as required by the bidding. We highlight that the construction of that track 3 is subject to the formalization of the corresponding contract.
